

**Alfa Wassermann Diagnostic Technologies Awarded Omega NorthFace
Scoreboard Award**

WEST CALDWELL, NJ – July 7, 2010 - Alfa Wassermann Diagnostic

Technologies, LLC (AWDT) has announced it has been awarded the Omega NorthFace ScoreBoard Award for the eighth consecutive year. AWDT is being recognized for its exemplary service to its customers as well as its commitment to exceed all customer expectations.

AWDT received the NorthFace ScoreBoard Award for its consistently high customer satisfaction ratings throughout the 2009 calendar year, as measured by the Omega Management Group Corp. Omega presents the award to companies each year based on periodic measurements of the satisfaction levels of their customers. Customers are asked to rate candidates in terms of their overall satisfaction with client service in several categories. AWDT was selected as a NorthFace ScoreBoard recipient based on its scoring of four-point-zero or above (on a five-point scale) for the past year in the Distributor Sales Organization, Overall On-Site Service, Order Processing, and Deliveries categories.

Alfa Wassermann Diagnostic Technologies President, Peter J. Napoli, is delighted with receiving the NorthFace ScoreBoard Award, stating: "Achieving this recognition for the eighth consecutive year truly validates our ongoing commitment to the success and product satisfaction of our customers. Our Sales and Service Teams have done an excellent job of not only addressing our customers' needs but of

anticipating them as well. I am proud that their expertise and efforts are being recognized.”

Alfa Wassermann Diagnostic Technologies, LLC is a leading provider of medical diagnostic instrumentation and reagents to the medical community. Its primary focus is the physicians’ office laboratory (POL) with a growing presence in the hospital laboratories and veterinary clinics. Alfa Wassermann’s diagnostic technology products include the ACE *Alera*[®], ACE[®], and VetACE[™] that are sold around the world to physician, veterinary, and research laboratories, including many of the leading pharmaceutical companies, academic institutions, and animal conservancies.
